

Finding yourself in a landscape of practice

imagining the future of learning

Xi'an Jiaotong-Liverpool University
Learning and teaching colloquium
April 7, 2016

Competence: climbing a hill

Finding yourself in a complex landscape

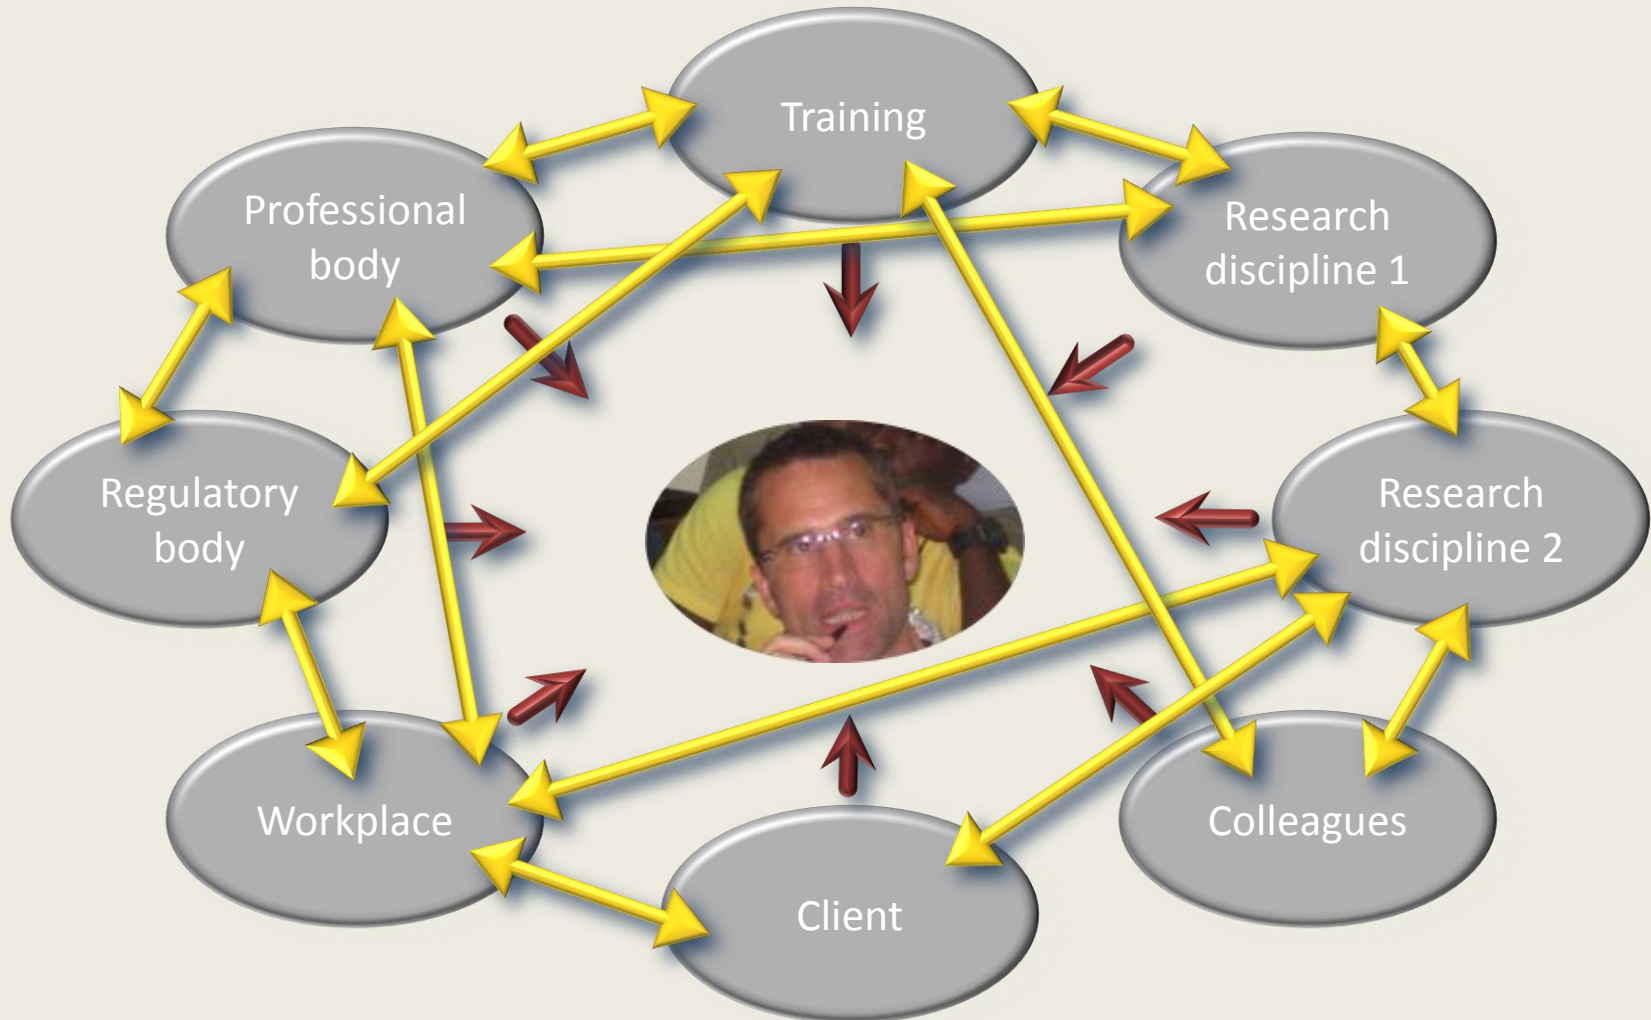

Finding yourself

in a complex landscape

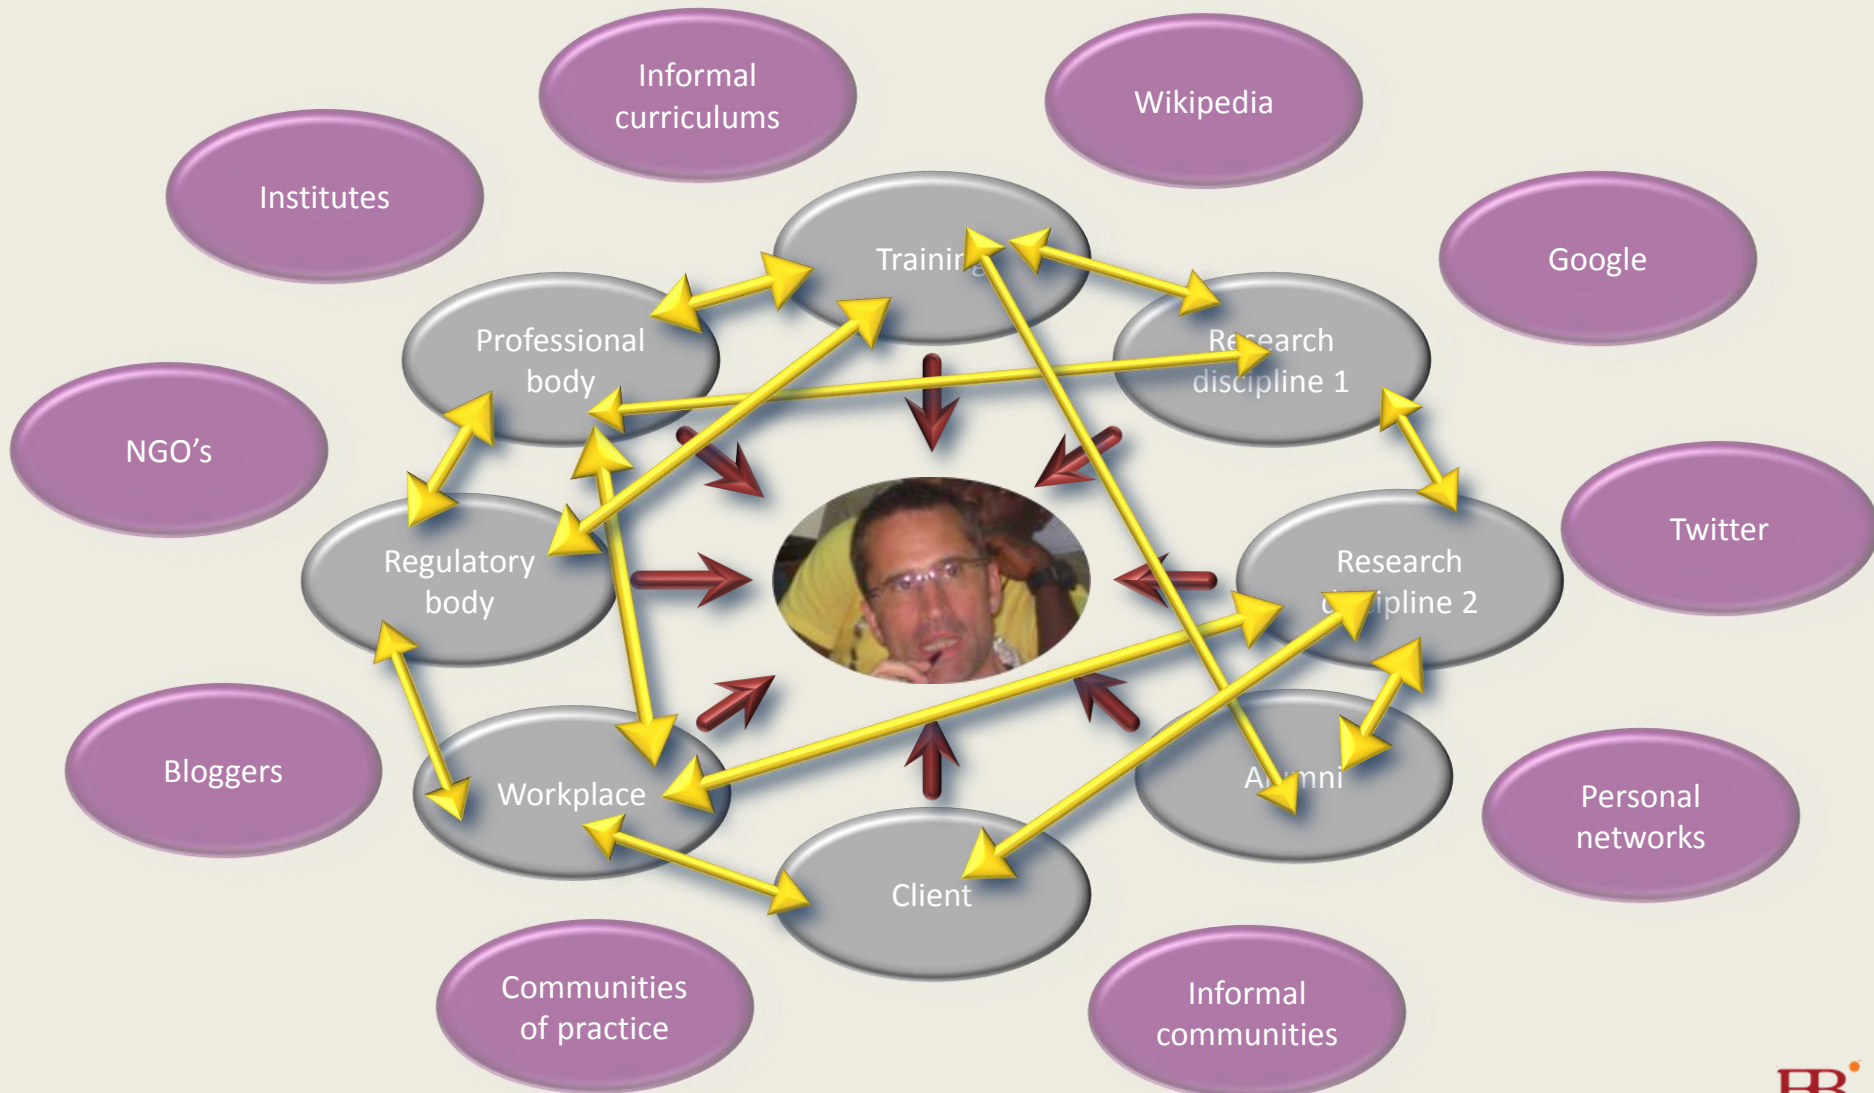

Finding yourself

in a complex landscape

Finding yourself

in a complex landscape

Finding yourself

in a complex landscape

Identity in the 21st century

Knowledgeability: taking in the landscape

Finding yourself

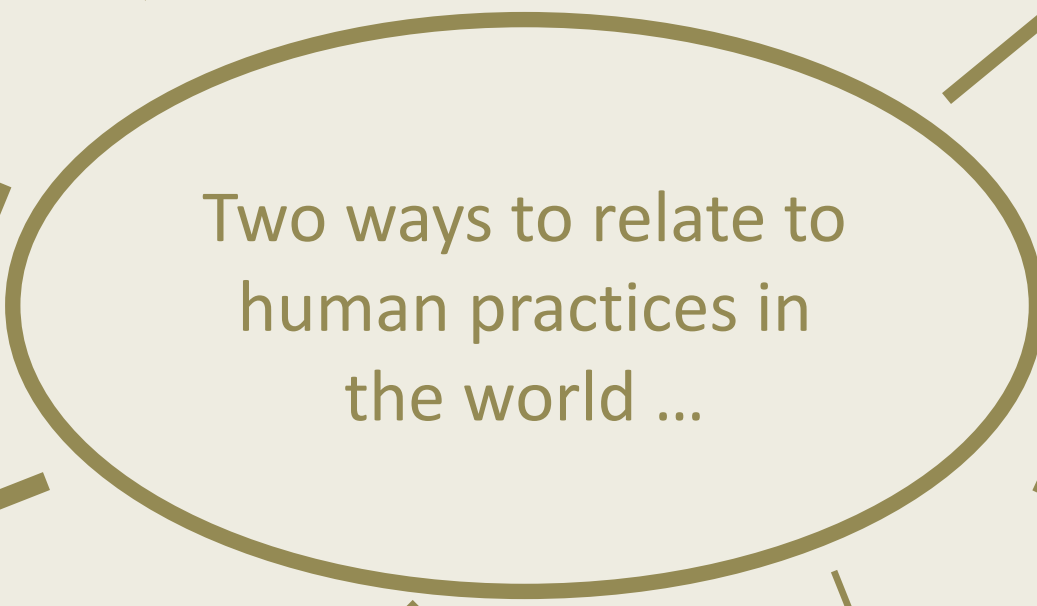

in a complex landscape

Identity in the 21st century

Finding yourself

in a complex landscape

Two ways to relate to
human practices in
the world ...

Competence and knowledgeability

Landscapes of practice

a social body of knowledge

Community-University Partnership Program

University of Brighton

Boundaries of practice

Seeing boundaries as learning assets

Stories of boundaries

When have you crossed a significant boundary?

The future of learning

in an increasingly complex landscape of practice

... a shift in the burden of identity

Thank you!
